<b>PROFILE</b>
----------------

Dr. Beverly Butler specializes in clinical neuropsychological assessment and rehabilitation of adults after traumatic brain injury, stroke, and other neurological, psychiatric or medical conditions. Her practice includes assessments and recommendations for rehabilitation purposes as well as independent medical evaluations for insurance companies, workers' compensation boards, employers and legal professionals.

Dr. Butler has a Ph.D. in Clinical Psychology from Dalhousie University. She has been actively involved in research for many years and remains committed to researching the assessment and rehabilitation of cognition after acquired brain injuries and neurological/psychiatric conditions. Dr. Butler also volunteers on the board of directors of the Brain Injury Association of Nova Scotia.
