

The Role of Psychology in Addressing Pain and Related Opioid Dependence

Overview:

Through our partnership with the American Psychological Association (APA), we have been given access to these videos featuring American Pain and Opioid experts. The videos are hosted by Jared L Skillings, PhD, ABPP, Chief of Professional Practice, APA. The 3 speakers are David Bruns, PsyD, FAPA, Jennifer F Kelly, PhD, ABPP and Ravi Prasad, PhD,

These 5 videos deal with various issues as described below. They will be presented by Zoom on Friday July 5th from 9 am to 5 pm. In addition, APNS member Dr Frank Fedde with a specialty on pain will be available at the end of each video to provide context and answer questions from the attendees.

Video 1

- Intro to pain and the Opioid Crisis
- Biopsychosocial Model of Pain Part 1: Pain Theory and Biology
- Biopsychosocial Model of Pain Part 2: Psychological Factors: The Initial Psych Interview; Psychologists Role on an Interdisciplinary Pain Team; More Adverse Childhood/Adult Experiences

Video 2

- Biopsychosocial Model of Pain Part 3: Social Factors; Social, Cultural, Racial, and Health Care Disparities As It Relates to Pain

Video 3

- Pain Guidelines
- Pain Assessments (Testing), Psychometrics, and Research on Outcome Variables
- Billing (HBAI, Psych Codes, SBIRT)

Video 4

- Pain Treatment (Behavioural Tools for Pain Management)
- Additional Populations, Conditions, and Considerations
- Telehealth and the Impact of a Pandemic

Video 5

- Need For All Psychologists to Understand Pain
- Core Competencies to Be a Pain Psychologist
- Case Histories Roundtable

Audience:

This workshop is appropriate for registered psychologists and psychologists in training.

The Role of Psychology in Addressing Pain and Related Opioid Dependence - A full-day on-line video presentation ~ Friday, July 5, 2024 - 9 am - 5 pm by Zoom

Jared L. Skillings, PhD, ABPP, Chief of Professional Practice, APA

was appointed chief of professional practice for the American Psychological Association in July 2018. In this role he leads the association's efforts to promote the practice of psychology and advocates for practicing psychologists through federal and state legislative advocacy, legal and regulatory initiatives and public education.

David Bruns, PsyD, FAPA received his PsyD from the University of Northern Colorado. He has been a practicing health psychologist for 34 years, and specializes in the assessment and treatment of chronic pain. He is a senior clinical instructor for the University of Colorado Medical School, and has served as a technical expert for CMS. Dr. Bruns has been involved in the development of about 20 medical treatment guidelines. He is the coauthor of numerous articles and book chapters about chronic pain, and led a 15 year-long longitudinal study of 29 million patients testing the effects of the biopsychosocial model.

Jennifer F Kelly, PhD, ABPP is a Licensed Psychologist and Board Certified in Clinical Health Psychology. She is the Director of the Atlanta Center for Behavioral Medicine in Atlanta, GA. She has expertise in treating disorders that involve the relationship between physical and emotional conditions. Within health psychology, she specializes in Pain Management. Dr. Kelly was the 2021 President of the APA. She served as the co-chair of the Advocacy Coordinating Committee of the APA Services, Inc. A past president of the Georgia Psychological Association, she has served as the Federal Advocacy Coordinator for 20 years. She is a recipient of APA's State Leadership Award, Karl F. Heiser Advocacy Award, Legislative Award by the Georgia Psychological Association, and the APA Practice Organization's Federal Advocacy Award.

Ravi Prasad, PhD is a clinical professor and the Director of Behavioral Health at the University of California Davis, School of Medicine within the Division of Pain Medicine. He currently leads the Pain Psychology Special Interest group within the Society for Health Psychology and created the interdisciplinary Pain Medicine Shared Interest Group within the American Academy of Pain Medicine.

Dr. Frank Fedde specializes in the psychological treatment of chronic pain and work injury trauma. He has worked for the Worker's Compensation Board Alberta, as a Senior Psychologist for CBI-Health in Surrey, and as a Chief Psychologist for the Centre for Anesthesiology, Intensive Care, and Pain Treatment in Tutzing, Germany. Currently, he offers Pain Management and Trauma Treatment in his private practice in Halifax, NS.

In 2003, Dr. Fedde received a Bachelor Degree in Inter-cultural Social Work from the Catholic University of Eichstaett, Germany, and holds a Master's degree in Counseling Psychology from Lewis & Clark in Portland. In 2009, he graduated from The University of Memphis, with a doctorate in Counseling Psychology. Dr. Fedde is a former Fulbright fellow and a University of Memphis Student Research Award recipient.
